FORTUNE TELLER

Folding Instructions

1. Cut the square fortune teller out of your full printed sheet of paper.
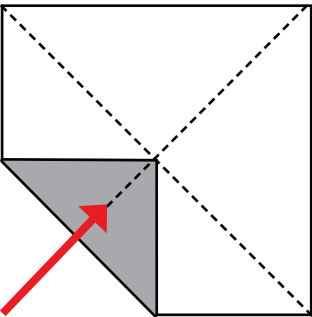

2. Fold the paper from corner to corner, creating a triangle

3. Fold the paper again from corner to corner, creating a smaller triangle

4. Unfold your paper. You should have a square piece of paper with an 'X' shaped crease

5. Fold one corner of the paper into the center of the square (where the 'X' crosses)

6. Repeat this fold with the other three corners. After this step, you should end up with a smaller square
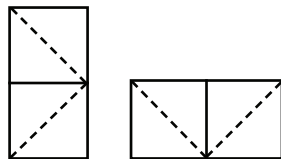

7. Flip your paper upside down

8. Fold one corner of the paper into the center of the square (where the 'X' crosses)

9. Repeat this fold with the other three corners. After this step, you should end up with a smaller square

10. Fold and unfold the square in half, in both directions (from left to right and from top to bottom). When unfolded, it should look like an asterisk is creased on your square paper
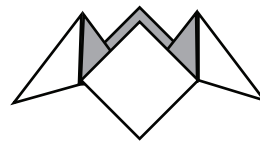

11. Bring all four corners of the square together in the center so you are able to place your fingers into the openings of the fortune teller

Playing Instructions

1. Hold the four corners of the paper with index fingers and thumbs on both hands, keeping two pairs of corners together and the other two pairs separated so that only half of the internal sides of the corners are visible.

2. Choose any color from your fortune teller, use your fingers to switch between the two groups of colors and numbers inside the fortune teller as you spell out the color of your choice. Choose a number from the inside of your fortune teller, use your fingers to switch between the two groups of colors and numbers inside the fortune teller as you count to the number of your choice. Pick one final number or color and lift to reveal what your act of kindness should be!
