rainbow Hair Braids

Rainbow Hair To Brighten Your Day!

What You'll Need: Hair Ties (at least 4) · Faux Hair Extensions

1. Take a small, 1-inch section of hair from the top of the head and tuck the hair extension in between this section & tie it off with a rubber band into a small ponytail. This will be where you start your braid!

2. With the hair sectioned off in thirds (A, B & C), grab a small section of hair outside of the ponytail to pair it with your C section.

3. Place your B part (hair section) over C.

4. Move A (extension section) under C.

5. Grab another small section of hair outside of the braid to pair with B.

6. B moves under A.

7. C under B.

8. Grab another small section of hair outside of the braid to pair with A.

9. A under C.

10. Grab another small section of hair outside of the braid to pair with C.

11. Repeat steps 2-10 all the way through the hair to complete the braid.
