

# claire's **DIY** CREATE YOUR OWN Vision Board

A Vision Board is a super fun way to put all of your future dreams and goals into one place! The goal is to bring everything on your vision board to life and watch your dreams turn into a reality!

**Step 1:** Gather your supplies! Just make sure you have something sturdy to create your masterpiece on and a clean space to work.

**Step 2:** Brainstorm! Think about all of your wildest dreams and favorite things and then write them down. There is no right or wrong - just write anything that makes you happy!

**Step 3:** Put these dreams into action by finding inspiration from all of your favorite magazines, newspapers, and websites!

**Step 4:** Cut out your favorite images (be careful!) and start to organize them!

## HELPFUL TIP!

Lay your images out on your board before you start gluing/taping!

**Step 5:** Once you've decided the perfect placement for all of your images - tape or glue them down!

**Step 6:** Put your own artistic finishing touches on your vision board with your decorations and coloring supplies!

**Step 7:** When you're finished, let your masterpiece dry and hang it somewhere where you can be reminded of all of your favorite things, hopes and dreams for the year to come!
